

SEELAM DIVYA KUMARI

Address: Madhura Nagar, Hyderabad, 500038 | **Mobileno:** 9502566698 |

Email: divyakumari.seelam@gmail.com

LinkedIn: www.linkedin.com/in/seelam-divya

Github: <https://github.com/seelamdivya23>

Portfolio: <https://seelamdivya23.github.io/my-portfolio/>

PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented fresher with a strong foundation in Python, Machine Learning, Generative AI, and Data Analysis. Skilled in data preprocessing, analysis, and visualization using NumPy, Pandas, Matplotlib, Seaborn, and SQL. Experienced in building and evaluating ML models, solving problems, and generating actionable insights. Eager to learn and contribute analytical and technical skills to a dynamic organization.

ACADEMIC QUALIFICATION

Master of computer applications (MCA)

University pg college,ou,secunderabad (2022-2024)

GPA:8.59

Bachelor Of Science (MPCS)

Hindu Degree College for women,Hyderabad (2019-2022)

GPA:9.23

TECHNICAL SKILLS

Programming & Tools:

- Python, OOPS, Data Structures & Algorithms,HTML,CSS,Javascript(Basics)
- Jupyter, VS Code, Git & GitHub,Docker

Backend Development:

- Flask, FastAPI (basics), REST API development

Machine Learning & AI

- ML Models:Classification& Regression, Random Forest, Decision Trees, SVM, KNN, XGBoost, AdaBoost
- DL Models: CNN, ANN (TensorFlow/Keras)
- NLP: Tokenization, Lemmatization, TF-IDF, Word2Vec, NLTK
- Generative AI: LangChain, LLaMA 2/3, LangGraph

Databases

- SQL (MySQL)
- CRUD operations, Joins, schema design

Visualization, Math & Statistics

- NumPy, Pandas, Matplotlib, Seaborn
- Hypothesis Testing, Probability, ANOVA, t/z tests

PROJECT WORKS

1. Diabetes Detector Web App

Machine Learning | Flask | Scikit-learn | Pandas | SMOTE | HTML

- Developed a web-based ML app for diabetes prediction using the PIMA dataset.
- Built a modular pipeline with preprocessing, outlier removal, SMOTE, model training, and prediction.
- Trained multiple classifiers, selected the best model, and deployed via Flask with GridSearchCV tuning.

Project link : <https://github.com/seelamdivya23/Diabetes-Detector.git>

2. Analysis Of Women Safety In Indian Cities Using ML On Tweets

Natural Language Processing | Python | Scikit-learn | Pandas | NLTK | Flask | Matplotlib | Seaborn

- Collected and processed tweets on women's safety using Python and Pandas.
- Applied NLP techniques and performed sentiment analysis with TextBlob.
- Built a Tkinter GUI to analyze datasets and visualize sentiment distribution with Matplotlib.

Project link : <https://github.com/seelamdivya23/Women-safety-analysis-tweets.git>

4. Custom AI Chatbot

Natural Language Processing | Python | LangChain | Ollama (LLaMA 2/3) | Streamlit

- Built a modular AI chatbot web app with real-time responses using LLaMA models.
- Implemented chat features: new chat, searchable history, saved chat library, and dark mode toggle.
- Designed a responsive Streamlit UI with session-based memory and interactive chat bubbles.

Project link : <https://github.com/seelamdivya23/chatbot.git>

3. Advanced RAG Document Chatbot

Generative AI | Python | LangChain | Ollama | ChromaDB | Streamlit

- Built a RAG-based chatbot to answer questions from uploaded documents (PDF/CSV/TXT).
- Used LangChain with Ollama (LLaMA 2/3) and ChromaDB for embeddings and vector search.
- Designed a simple Streamlit UI for document upload and interactive chat.

Project link : <https://github.com/seelamdivya23/advanced-rag-document-chatbot.git>

CERTIFICATIONS

- Programming with Python – Internshala
- Data Visualization – Tata Forage
- Introduction to Generative AI – Simplilearn
- Training in Data Science – NEXT IT CAREER Institute
- Microsoft Office – GCS Institute

ACHIVEMENTS

- First Rank (SSC)
- Active participant in science fairs
- Winner in Kho-Kho (Inter College)
- Awarded “Best Class Representative” in Graduation

PERSONAL DETAILS

Languages : English, Hindi, Telugu

DOB: 23/08/2001

Hobbies: Cooking and Dancing
